Message of the Founder - Chancellor

The Vels Group of Institution was established in fond memory of my father Shri. Isari Velan. Our commitment to our Nation is to produce finest individuals with scientific mindset, who would aim at infinite knowledge.

Today, Vels University is one of India's best institutions carrying forward the 25 years of legacy of quality education.

The University provides an outstanding academic, recreational and co-curricular environment along with excellent placement opportunities.

The students joining the University enjoy a perfect balance between high educational standards and a lifestyle coupled with Indian ethos and modernity.

Multi-disciplinary and inter-disciplinary approach to studies followed by the University has been helping the students to learn by linking ideas and concepts across various disciplines. We offer a safe and friendly environment to shape students into perfect and successful professionals and responsible citizens.

I would say "Vels University is Your University". The high quality of education here helps you to sculpt yourself as a leader in all walks of life.
